

## Interesting Questions Postcards

As a member of 5Q Group, we are including postcards for various Interesting Questions. These can be printed in-office and the directions for you to do so are included below. These postcards are only offered to you via Microsoft Word (.docx) format.

### Directions:

#### Size of the Postcard

The size of the finished postcard will be 5.5 X 8.5

#### Postage

Because of the size, it requires a regular first-class stamp.

#### Paper

Will need to be printed on at least a #67 cover-stock. It is meant to look official so plain white is best.

#### Printing

This is designed to be printed 2 postcards on one regular size 8.5 X 11 sheet of cardstock, back-to-back. You will then need to cut this in half to end up with the two postcards.

#### Handwriting

The messages should be handwritten on the back to make sure they get read. Without them being handwritten, you will have to send out almost 5 times more cards to get the same response. You can either handwrite them yourself or you can hire either a client or a teenager that would be willing to handwrite them for you. For 150 postcards it would take about 1 ½ hours and you could pay them \$20. The person should have “manly” handwriting if you are a man and “female” handwriting if you are female.

The verbiage for the handwritten portion for each of the Postcards are included below:
